COMPANY FORMATION IN SWEDEN

| *Sweden's formation process & timeframe*

Sweden is known for its stable economy, innovative business environment and transparent legal system. It has a highly educated workforce and is a leader in industries such as technology, manufacturing and green energy. As a member of the European Union, Sweden offers access to the EU single market, making it a prime location for companies looking to operate in Europe. Sweden's business-friendly environment, competitive corporate tax rate, and strong infrastructure make it an attractive jurisdiction for both start-ups and established multinational companies.

PROCESS

The process for incorporating a company in Sweden is streamlined and efficient, particularly for companies looking to benefit from Sweden's strong infrastructure and access to the European market. We guide clients through the incorporation process, ensuring compliance with local regulations, including AML and KYC checks.

Preparation of documents

1

- o **Memorandum and articles of association:** These documents outline the company's objectives, internal governance, and share capital.
- o **Due diligence:** Collect identification documents for directors and shareholders, including passports and proof of address, to ensure compliance with AML requirements.

Deposit of share capital

2

- o Open a corporate bank account and deposit the required share capital. A bank receipt is required for incorporation.

Filing with the Swedish Companies Registration Office (Bolagsverket)

3

- o Submit the memorandum and articles of association, bank receipt, and identification documents to the Swedish Companies Registration Office for review.

Issuance of certificate of incorporation

4

- o Upon approval, the Swedish Companies Registration Office will issue a certificate of incorporation, legally recognising the company.

Tax registration

5

- o The company must register with the Swedish Tax Agency (Skatteverket) to obtain a Tax Identification Number (TIN) for tax filings.

VAT registration

6

- o If the company's turnover exceeds SEK 30,000, VAT registration is mandatory. A VAT number can be obtained from the Swedish Tax Agency.

Employment registration

7

- o If the company plans to hire employees, it must register as an employer with the Swedish Tax Agency.

Licences & permits

8

- o Depending on the business activity, additional licences or permits may be required, particularly in regulated industries like finance, health-care, or environmental services.
